## PROJECTS

**Farm - Sense Farmer Relations and Resource Management System** | Java,  
Spring Boot, REST API, JPA, ReactJS, Bootstrap, MongoDB  
GitHub link- <https://github.com/MG5737/FarmSense.git>

AUG 2023

- Farm-Sense is a platform for Exporters who are working in Agri export business to manage the farm end supply chain and farmers relations.
- It is an integrated platform that will provide facilities like inventory management, finance management, farmer relation management, resource tracking, and many more.
- By using this tool exporters can improve their productivity and efficiency of the supply chain.
- Farm-Sense uses **Spring Boot** as a Backend technology and **React** as a front-end technology. To store the real-time data, it has **MongoDB** as its database.

### Jovi Fitness Center: Fitness Class Coordination System

| Java,

Spring Boot, JPA, HTML, CSS, JavaScript, Bootstrap, MySQL

Website link- <https://jovifitnesscenter.online>

Jan 2024

- Jovi Fitness Center manages fitness classes and services for enthusiasts.
- Seamlessly view classes, check timetables, and book services.
- Built with **Spring Boot**, **Java**, **Hibernate**, **JPA**, **HTML**, **CSS**, **JavaScript**, and **MySQL**
- User-friendly interface for exploring, checking schedules, and convenient service booking.
